NO NEED OF CONGRESS.

Existing Conditions Do Not Warrant the Calling of an Extra Session.

DECISION REACHED BY THE CABINET.

Authority to Govern the Philippines Vested in the President by the Spooner Amendment.

Washington, June 4.—The cabinet unanimously decided that existing conditions do not warrant the calling of an extra session of congress this summer. Secretary Root and Attorney General Knox both rendered legal opinions to the effect that the authority to govern the Philippines vested in the president by the Spooner amendment was ample. These opinions were concurred in by all members of the cabinet.

The decision of the cabinet was announced after the cabinet meeting in the following statement issued by Secretary Cortelyou: "The president has determined that existing conditions do not require or warrant calling congress together during the present summer, or making any change in the policy hitherto pursued and announced in regard to the Philippine islands."

It can be authoritatively stated that the Dingley rates upon goods from the Philippines entering the United States will remain in force as heretofore. The president will put into effect such changes in the tariff duties on goods going into the Philippines as the Taft commission may recommend. The establishment of civil government in the archipelago can proceed without interruption as soon as the military authorities consider the time ripe for its establishment.

Inside information concerning the action of the Cuban convention on the Platt amendment has been just received in Washington. It appears that the first draft of the amendment, as interpreted by the majority of the committee on relations with the United States, was submitted to General Wood and by him sent to Washington. This draft was approved by Secretary Root, and his approval was made known to the Cuban convention. When the matter came up for discussion, however, it was found that there was a number of delegates whose votes could only be obtained by extended alterations, amendments and interpretations, which were finally adopted by the convention and rejected by Secretary Root. It is stated officially the people of Cuba believed at first that the Platt amendment had been adopted and they were satisfied. Such was the belief of the people of the United States until the draft of the adopted amendment was received here. The belief is expressed in official circles here that the Cuban people as a whole are perfectly satisfied with the Platt amendment and that it will be finally adopted.

A Love Tragedy.

New York, June 4.—Francisco Alasko, 22, shot and killed his first cousin, Mrs. Angelina Faia, 27, in the Woman's home, and then committed suicide by shooting himself in the breast. The tragedy occurred in a tenement at 163 Elizabeth street, a poor part of the city. Alasko was in love with the woman. The police at first believed the husband had killed his wife and Alasko in a fit of jealousy. Faia was held a prisoner as a "suspicious person," but his innocence was apparently established by the straightforward story of the tragedy told by his little daughter, Carmelia, who said Alasko had done the shooting during her father's absence from the house.

Became a Maniac.

Golden, B. C., June 4.—Hon. Frank Lacelles, a wealthy English ranch owner, residing on Thunder hill, shot and killed his Chinese cook. Lacelles is related to the Earl of Harewood and is a cousin of Sir Frank Lacelles, British ambassador to Germany. Lacelles became demented through brooding over a fancied insult in connection with his being called to give evidence in a suit over the ownership of a horse, and accused his cook, who had served him for five years, of being a burglar. After his arrest Lacelles became a raving maniac.

Asphalt Melted.

Atlantic City, June 4.—The British steamship Ranalda, from Trinidad for New York, whose cargo of asphalt melted and caused the ship to list so badly that she anchored off here Monday, sank offshore about a mile from Young's pier. The ship lies easy in six fathoms of water. Her crew came ashore in rowboats. An immense crowd of summer visitors is gathered along the board walk viewing the unusual spectacle.

Indians Ugly.

Lander, Wyo., June 4.—As a result of a shooting affray between a white

sheep-herder and an Arapahoe Indian, which occurred on the reservation Sunday, and in which an Indian was killed, serious trouble is feared, as the Indians are reported to be in an ugly mood over the affair. The sheepmen are said to be moving their herds closer together for protection. They have sent to their outlying stores for ammunition.

CITY OF ERIE WON.

Rattling Race Between Steamers on the Big Lake.

Erie, Pa., June 4.—Two large modern sidewheel passenger steamers, the City of Erie, of Cleveland, and the Tashmoo, of Detroit, engaged in a one-hundred-mile dash from Cleveland to Erie to decide the speed championship of the great lakes. The day was clear, the water smooth, and the race exciting from start to finish. The City of Erie won, reaching the stake boat off here 1 minute and 34 seconds ahead of the Tashmoo. Thousands viewed the contest all along the route, and a mint of money changed hands on the result.

National Manufacturers.

Detroit, June 4.—The sixth annual convention of the National Association of Manufacturers of the United States was called to order here with an attendance of 250 business men, representing the leading manufacturing institutions of the United States. Mayor William C. Maybury welcomed the visitors to Detroit, and President Theodore C. Search responded to the mayor's welcome. During the course of his remarks he said that the great energy manifested in the United States was due to the public school system, by means of which the children in America were taught to think for themselves independently.

NO IMPROVEMENT

Shown in Condition of Mrs. McKinley. A Consultation.

Washington, June 4.—Drs. Johnston, Sternberg and Rixey were in consultation over an hour at the White House. Secretary Cortelyou gave out the following statement: "Mrs. McKinley's physicians report that her condition has not materially changed since Monday."

Trial of Professor Herron.

Des Moines, June 4.—At Grinnell, Ia., the trial of Professor George D. Herron, charged with conduct unbecoming a minister, began in the Congregational church of that city, with 13 churches of the district represented. Dr. Boardman of Marshalltown, the oldest minister present, presided. Dr. Herron has sent a letter in his own defense, dealing with his specific individualities, and not with marriage and divorce in general. He states that he was called on a divine mission as a sort of new prophet, and that his wife did not give him her sympathy and appreciation, so that the home atmosphere was uncongenial.

Presidential Appointments.

Washington, June 4.—The president made the following appointments: Interior—Simon Michelet, agent at White Earth Indian agency, Minnesota; Francis M. Elsey, Indian Territory, chairman of referees to assess and appraise the damages for right of way of the Arkansas and Choctaw railway through the Choctaw and Chickasaw nations in the Indian Territory; Justice—Joseph B. Kealing, United States attorney, district of Indiana.

Unger Insurance Case.

Chicago, June 4.—Dr. E. P. Noel, who conducted the autopsy on the body of Marie Defenbach, was put on the stand in the Unger insurance conspiracy case and declared his belief that the girl died from dysentery. On cross-examination witness admitted that cyanide of potassium might be administered in such a way that no odor would arise. Testimony for the defense, which began with Dr. Noel's statements, is expected to be in soon, and Judge Tuley said he thought the case would go to the jury by Friday night.

Aged Couple Tortured.

Sandusky, O., June 4.—Near Venice, this county, Mr. and Mrs. Nicholas Goetting, an aged couple living alone, were bound, gagged and tortured by burglars, who ransacked the house, securing \$30. The old man was terribly beaten. The couple did not succeed in freeing themselves from the bonds until after ten hours' exertion.

Drought Broken.

Kansas City, June 4.—A general rain in Kansas, the fall at some points measuring one and one-half to two inches. Wheat and cornfields that have been suffering for two weeks from drought received inestimable benefit. Near Arcola high water damaged the Union Pacific tracks, delaying trains ten hours.

Asphalt Melted.

San Francisco, June 4.—The Forty-third United States infantry was mustered out at the Presidio.

HIT A SWITCH ENGINE.

Passenger Train on the Southern Road Wrecked In the Atlanta Yards.

OVER A DOZEN PERSONS CAUGHT.

Three Killed Outright, Some Seriously and the Others Severely Injured — Another Express Train Burned.

Atlanta, June 4.—An incoming passenger train from Macon, on the Southern railway, was struck by a switch engine, near the Southern shops, in the outskirts of this city. Three persons were killed and about 15 injured. The dead: Mrs. A. A. Lemon, McDonough, Ga.; Miss Alma Lemon, her daughter, McDonough, Ga.; H. H. Vickers, Flovilla, Ga. Among the seriously injured are: A. L. Bunn, McDonough; A. L. Fouché, McDonough; Mrs. Julia Kirby, Atlanta.

The train consisted of five cars, one sleeper and an observation car, forming part of the Southern vestibuled limited which leaves Atlanta for Washington. These two cars were badly wrecked and the trucks were knocked from under one of the day coaches.

The passenger train was passing the shops at a high rate of speed, when suddenly the switch engine, standing on a siding, started backward on the moving train. The railway officials claim that the man in the cab was unable to control it. It was learned that the man in the cab was Yard Conductor Duncan. He has been placed under arrest.

Passenger Train Burned.

Pittsburg, June 4.—Passenger train No. 106 on the Panhandle railroad, known as the Carnegie accommodation, ran into a tank car full of oil in the Try street tunnel. The oil immediately ignited and the passenger train was completely destroyed. Fortunately there were only nine passengers aboard, seven of them railroad workers, and all made their escape by making a hasty retreat from the rear end of the tunnel. One person, William J. Reese, a telegraph operator, was slightly hurt. The accident was caused by a mistake in signals. The loss to the railroad company will amount to many thousands of dollars.

Celebrated Case On.

Philadelphia, June 4.—The trial of Richard F. Loper, formerly manager of Guarantees' Finance company, for conspiracy to defraud the People's bank, which failed in 1898, began before Judge Marlin. The suicide of John F. Hopkins, cashier of the bank, disclosed the fact that both institutions were insolvent. Hopkins left a letter accusing Loper of being the cause of his ruin and charging him with wrecking the Guarantees' company and the People's bank. Loper was arrested and indicted. His trial was postponed six times. District Attorney Finletter, in opening for the commonwealth, reviewed the charge of the conspiracy, and said he would show that Loper played on the fears of Cashier Hopkins after he had ruined him to obtain money from the bank without collateral.

Strike at Newport News.

Newport News, Va., June 4.—The machinists in the employ of the Newport News Shipbuilding and Drydock company to the number of 500, which virtually includes all the skilled mechanics in the machine department, went on strike, their demand for a shorter working day having been refused by Superintendent Post. The yard will continue in operation until the absence of the machinists interferes with the work in hand. Superintendent Post says the yard does not contemplate taking any action whatever; that the company will not admit of any interference with the management of its business and will not arbitrate any question with the men on strike. A number of the strikers have left and others are preparing to leave the city.

Army and the Social Evil.

Pittsburg, June 4.—There was a full attendance of delegates when Moderator Martin opened the sixth day's session of the Reformed Presbyterian synod of North America. After devotional exercises, Rev. R. C. Allen of Grove City, Pa., presented the report of the special committee appointed by the synod to inquire into evils of the United States army system. The committee devoted itself more especially to the social evil as it exists in Hawaii and the Philippines. It is alleged that the evil is legalized and protected by military regulations, and the committee demands that the system protected by our military rules be uprooted. The report was unanimously adopted.

Lunatic in the Vatican.

Rome, June 4.—While the pope was

at work in his private room a maniac made his way to the anteroom and shouted: "The pope is dead. I am his successor; give me the crown." The noble guards on duty seized the intruder and prevented him from penetrating to the pope's chamber. But the holy father had heard the shout. He ordered that the man be arrested. He turned out to be Valentine Paterno, a religious fanatic. He was taken to a lunatic asylum. How he passed the gatekeepers, guards and ushers all the way from the outer gate of the vatican to the very door of the pope's room is a mystery as yet unexplained.

SENATOR CARMACK'S VIEWS.

Says the Supreme Court Is a Decayed Spot In Our Constitution.

Memphis, June 4.—The following interview with United States Senator E. W. Carmack is published with regard to the recent decisions of the supreme court: "The decisions," said Mr. Carmack, "do not seem to have satisfied everybody. I see that some of the friends of the administration are demanding a reargument of the cases in order to have the opinion of the court modified in certain particulars. If the administration really wants it modified, I have no doubt that it will be modified in accordance with its desires.

"The decision emphasizes anew the fact that the supreme court is a decayed spot in our constitution. In the income tax decision the supreme court stripped the government of important powers which it had possessed for more than 100 years. Both decisions almost justify one in believing that the court which was once regarded as the mainstay of the constitution has become a revolutionary tribunal, engaged in a work of destruction."

Battle at Vlakfontein.

London, June 4.—Lord Kitchener, in a dispatch from Pretoria, dated June 4, says: "Dixon's report of the fighting at Vlakfontein, 40 miles from Johannesburg, May 29, just received. On our side 1,450 men, with seven guns, were engaged. The force was returning to camp at Vlakfontein when the enemy, under cover of a veldt, fired, rushed the rear guard, consisting of two guns of the Twenty-eighth battery and 330 men of the Derbyshires and the Yeomanry. They temporarily captured the two guns. When the remainder of the force came into action the Boers were driven off, the guns recaptured, and the Boer position was occupied. Our casualties were six officers and 51 men killed, 6 officers and 115 men wounded, and 1 officer and seven men missing. Forty-one Boers were killed on the ground. The further Boer casualties are not known. Reinforcements are being sent."

Situation at Chicago.

Chicago, June 4.—There will be no settlement of the machinists' strike in Chicago until after June 11. This was the decision of the local manufacturers this afternoon when the members of the Chicago Association of Machinery Manufacturers pledged allegiance to the National Metal Trades' association, and agreed not to enter into negotiations with any of their employers until after the great gathering of employers in New York city on June 11. While the manufacturers were discussing their future action the machinists were not idle, a number of machinists leaving the three plants of the Crane company to join the strikers.

Redwood Combination.

San Francisco, June 4.—There is in process of formation a combination having for its ultimate object the gathering in of all the redwood interests on this coast. The capital of the combination will be somewhere between \$15,000,000 and \$20,000,000. The land which it is proposed to acquire is in the three great redwood counties of the state, the acreage being distributed as follows: Humboldt, 420,000; Mendocino, 600,000, and Del Norte, 125,000, a total of 1,145,000 acres.

Accepted Challenge to Die.

Lincoln, Neb., June 4.—Albert Brink, city solicitor for a wholesale grocery house, and prominent in society here, and Mrs. Mabel H. Walker took poison at Brink's room at a hotel in an effort to commit suicide. When found the woman was dead. Brink may recover. He is in the custody of the police. Brink says the dead woman and himself were infatuated; that she challenged him to die with her, and they both swallowed cocaine and wood alcohol.

Bishop Parker.

New York, June 4.—A cablegram was received in this city announcing the death of the Rev. E. W. Parker, missionary bishop of the Methodist Episcopal church for southern Asia. His death occurred at Nainital, India, where he had gone for his health. Bishop Parker had been suffering for a long time with an acute form of stomach trouble. His regular station was at Lucknow.

SET FIRE TO DYNAMITE

Powder Thawing Machine, Becoming Hot, Creates Havoc In a Mine.

SHAFT RUINED BY THE EXPLOSION.

Eight Men Caught by the Suffocating Fumes and All Perish. Victims Foreigners and Married.

Iron Mountain, Mich., June 4.—By the explosion of a quantity of powder and the suffocating fumes that followed eight men were killed in the seventh level of the Ludington shaft of the Chapin mine. Suddenly there was a rumble, and smoke began pouring from the mouth of the shaft. Rescuers hurried into the mine as soon as the smoke had cleared sufficiently, and found the eight miners, all who had been working in that section of the shaft lifeless.

Following is a list of the victims: Antonio Farnetti, John Amone, Joseph Passiri, John Milay, Louis Tassi, John Bertelli, Rinildo Ausnio, and a Pole, name unknown.

Nearly 30 children are rendered fatherless by the accident. Only one man was disfigured as if by the explosion, and he but slightly. The others were completely covered by black powder soot. The men were using a powder-thawing machine, and it is thought they neglected to supply it with powder. It is believed the machine becoming redhot set fire to the dynamite, and the men were stricken down by the deadly fumes before they could escape. The town is in mourning and work at the mine is at a standstill.

From Chicago to Europe.

New York, June 4.—The cable announced the arrival of the American steamer Northman at Hamburg, from Chicago, after a passage of 35 days, of which 19 had been occupied traversing the great lakes and canals before leaving Quebec for the ocean voyage. The Northman is the first steamer in the new Chicago-Hamburg service to cross the ocean, and her voyage has been watched with interest as a test of the probable success of the undertaking. She was preceded by the Northwestern, a sister ship, but that vessel was detained by a mishap, and lost the honor of being the ship to make the first voyage in the new service.

Women Protest.

Minneapolis, June 4.—State regulation of vice was one of the leading topics at the session of the National American Woman Suffrage association. The telegram of the Philippine commission to Secretary Root on Jan. 17, 1901, reciting that the military authorities in Manila "had for two years subjected women of bad character to certified examination," and the course of General MacArthur in defending such policy, was made the occasion for the adoption of a set of resolutions earnestly protesting against "the introduction of the European system of state-regulated vice in the new possessions of the United States."

Selected Officers.

Des Moines, June 4.—The most important feature of the day's work of the Evangelical Lutheran synod was the meeting of the Publication society and the selection of officers for the ensuing year. The committee on nominations for officials for the ensuing two years reported for president Dr. W. S. Freas; for secretary, William E. Fisher. The executive board was renominated with two exceptions, that of Dr. J. B. Reman Snyder, for Rev. T. C. Biliheimer, and Dr. W. C. Steaver for Mr. T. B. Patton.

Rumor Denied.

Berlin, June 4.—From an official source it was ascertained that the statement published by foreign journals that Emperor William and Queen Wilhelmina have agreed upon a convention whereby Germany assumes the protection of the Dutch colonies in return for certain commercial advantages, is absolutely without foundation. Queen Wilhelmina's visit to the emperor is said to be wholly devoid of political significance.

Was Mrs. Maybrick Released?

London, June 4.—Inquiry made at the United States embassy regarding statements published in the United States to the effect that Mrs. Florence Maybrick was released from Woking prison, May 24, and sailed the following day for the United States under an assumed name, shows that nothing has been heard there of the release of Mrs. Maybrick.

Dayton, O., June 4.—Captain Robert Patterson, a brother of John H. Patterson, president of the National Cash Register company, and father of the manager of that institution, dropped dead of heart failure on the street here. The deceased

ONE of the best things that can be said of hillside houses is, that the editor of the Ledger was educated in one, and that the leading historian of Kentucky was born and reared in another. Both houses are still standing upon their rocky base, as solid and accessible as they were fifty or sixty years ago. The editor of the Ledger is still held by the fascinations of the hillside, and lives in a lovely hillside home which he climbs into every day, and usually without "gaffs." There, at least, the air and sunshine are good, and one's "prospects" never better.

"There every prospect pleases
And greets us with a smile."

THE CROP OUTLOOK.

Cool Weather the Past Week Checked Growth of Vegetation—About Half the Tobacco Has Been Set Out.

[Weekly Bulletin of the Weather.]

Very cool weather prevailed until the last two days, when the temperature rose and the week closed with normal temperature. Frequent showers and much cloudy weather occurred. Light frosts were reported at some stations in the western portion on the 26th. The cool weather was very unfavorable, checking the growth of all vegetables.

About half of the tobacco was set out, but the plants are small and on account of the chilly nights are not starting well.

Corn is growing very slowly, and in many sections is sickly and yellow.

Wheat has continued to do well, and grass has improved. Oats are only fair in most sections.

Gardens are very late and are not growing well. Irish potatoes are doing fairly well.

Apples are dropping badly, but other fruits generally look promising. Strawberries are ripe, but lack sweetness on account of cool, cloudy weather.

Farm work was delayed in some sections by rain, but is fairly well up.

Cut worms are very bad in the north-central portion of the State. Tobacco and corn have been badly injured by them in some sections.

Didn't Marry for Money.

The Boston man, who lately married a sickly rich young woman, is happy now, for he got Dr. King's New Lite Pills, which restored her to perfect health.

Infallible for jaundice, biliousness, malaria, fever and ague and all liver and stomach troubles. Gentle, but effective. Only 25¢ at J. Jas. Wood & Son's drug store.

AFTER THE SLANDERERS.

Dr. Ament Denounces the Men Who Started False Reports About Missionaries.

DETROIT, June 1.—The News this evening published an interview with Rev. Dr. W. S. Ament, one of the American Board missionaries in China, which was obtained by J. Martin Miller, former war correspondent in China, at Dr. Ament's home in Owosso, Mich. Mr. Miller says that Dr. Ament denied that the missionaries looted in China, and said:

"The missionaries have been slandered for twenty years, to my knowledge. There is no use in denying these lies, but, nevertheless, I am fighting the slanderers with all my strength and am in the right trim for it.

"Furthermore, we have a man who will put up the money to fight the people who persist in the false reports, to the end, and that is the merchant prince, John Wanamaker, of Philadelphia and New York. He is a Presbyterian, and to my knowledge has offered money for this purpose.

"I feel very much like bringing action against Mark Twain and all the other publishers who printed his misrepresentation of facts. Webb C. Hayes, son of the ex-President, is another man I am after. I am going to Fremont, O., to find

him. In the purchase of Chinese goods he made from the missionaries, he beat us down to the last dollar and then talked scandalously about us." Mr. Miller says Dr. Ament explained that what goods had been taken were taken to ward off possible starvation.

BALLINGER, jeweler and optician.

He Is a Wonder.

All who see Mr. C. F. Collier, of Cherokee, Iowa, as he is now, cheerful, erect, vigorous, without an ache, could hardly believe he is the same man who, a short time ago, had to sit in a chair propped up by cushions, suffering intensely from an aching back, in agony if he tried to stoop—all caused by chronic kidney trouble, that no medicine helped until he used Electric Bitters and was wholly cured by three bottles. Positively cures backache, nervousness, loss of appetite, all kidney troubles. Only 50c. at J. Jas. Wood & Son's drug store.

HAYSWOOD.

Annual Commencement Attracted a Splendid Audience.

Two Young Ladies Receive Diplomas—Certificates Awarded to Large Class in Music—Dr. Smith's Address.

The annual commencement of Hayswood Seminary last evening attracted a magnificent audience to the First Presbyterian Church, the large auditorium of that handsome edifice being crowded with Maysville's best people. Many of the county's leading families were also represented.

The interest manifested in these closing exercises of the scholastic year must have been extremely gratifying to the Misses Hays and others who have labored so untiringly and so zealously to build up this school.

The handsome auditorium was beautified with a tasteful arrangement of flowers, plants and vines, and as usual there were lovely bouquets and gifts in profusion for the fair graduates, Miss Martha Newell and Miss Ethel Hutchison.

The following was the program:

1. Organ—March.
2. Prayer.
3. Concerto—Capriccio Brilliant.....Mendelssohn (For piano with orchestral accompaniment.) Misses Elizabeth and Frances Barbour.
4. Essay—Subj et, "Returned Manuscripts," Miss Martha D. Newell.
5. Duo—Pas Des CymbalesChaminade Misses Florence Alich and Marie Rains.
6. Essay—Subject, "From a Mountain Top," Miss Ethel Hutchison.
7. Sonata in F.....Mozart-Grieg (With second piano accompaniment.) Miss Jessie Rains and Miss Moore.
8. Address by Dr. J. Kinsey Smith, Louisville, Ky.—"Comradeship and Solacement of Books."
9. Quartette—Symphony in B minor.....Schubert Misses Elizabeth Barbour, Frances Barbour, Florence Alich and Marie Rains.
10. Quartette—Polonaise Brilliant.....Weber Misses Glascock, Ratus, Elizabeth Barbour and Frances Barbour.
11. Delivery of diplomas.
12. Duo—March Triumphale.....Goria Misses Glascock and Rains.

The address of Dr. Smith, the distinguished Louisville divine, was listened to throughout with the closest attention.

A more brilliant, suggestive and impressive address has never been heard within the walls of the old church. The speaker's wide and accurate range of learning, with his easy mastery of the resources of the English tongue, enabled him to present in rapid review the most interesting and instructive aspects of literature in its classic forms, and to impress upon his hearers the indispensable importance of seeking only such literary associations as the critical judgment of generations of highly cultivated scholars has decided to be the best. He insisted that a large and rapid sale of editions was not a conclusive test of the value of a book, and he emphasized again and again the importance of forming a correct taste for literature in early youth.

The rage for ephemeral literature, he said, can only be cured by drinking from the stream of knowledge at its purest source—the classics of all tongues.

The eloquent speaker's references to impressions derived from recent local experiences were in the happiest vein, and he was especially interesting in detailing the observations of an afternoon drive through the city and its environs. Our terraced gardens with their summer luxuriance of bloom were peculiarly pleasing to his eyes. He said he should always remember the picturesque little town as "The City of Roses."

Dr. Smith delivered the diplomas to the graduates. Certificates in music were delivered to Misses Aileen Glascock, Elizabeth Adamson, Elizabeth Barbour, Frances Barbour, Theodosia Curran, Anna Dodson, Christine Schaeffer and Florence Alich.

At the close, a brilliant reception was held at Hayswood.

PLUMVILLE, June 3rd.—The Sunday school children will meet Wednesday evening to make arrangements to have Children's Day in the near future.

There was quite a heavy wind and hail storm in the vicinity of Tollesboro Sunday afternoon.

There is talk of a tent meeting being held in the vicinity of Plumville, conducted by Rev. Compton and others. It will begin in about a week. The time will be announced later on.

James Sweet, of near Lewisburg, late of this place, lost two valuable cattle recently, supposed to be from hydrophobia.

Miss Rena Mae Coryell and mother were guests of Mrs. Nannie DeAtley Sunday.

A. L. Redman is a guest of his daughter, Mrs. Fletcher, this week.

Miss Tipple Jenkins was called to Portsmouth recently on account of the serious illness of her sister-in-law, Mrs. G. D. Jenkins.

EAST LIMESTONE, June 4.—The early corn came up well, but has suffered from the ravages of the cut worm. The later planted corn did not come up well.

Mrs. G. W. Beigle was called to West Union Saturday on account of the illness of her sister, Mrs. Sidney Beigle.

Mr. and Mrs. Richard C. Williams returned home Sunday evening after a very pleasant visit with relatives at Springfield.

Mr. and Mrs. Abe Haucke attended Children's Day exercises at the Christian Church Sunday.

A recent letter from Howard S. Williams, foreman of the Arbergast tiling and brick factory of Farmer City, Ill., states that he has been incapacitated from business for few days, but is again able to be on duty. His trouble was a car bunch on the back of his neck.

Quite a number of friends and relatives of Bowman Girvin, who met such an untimely and deplorable death, Saturday were misled by a current report that the burial would take place at Bethany Cemetery Sunday morning, consequently a large crowd were present to witness the interment, but it took place the following day at the Maysville Cemetery.

ORANGEBURG, June 3rd.—Mrs. W. J. Burnett, formerly Miss Anna Hayden, of Cincinnati,

came up from that city Friday to visit relatives.

The engine room of the new flour mill is completed. The machinery has been ordered from Richmond, Ind., and if it arrives in time will be placed in position by next week, ready to grind by the 25th of this month.

About half of the logs have been converted into lumber at the saw mill and two weeks of good weather will probably finish the remainder.

Cold weather and cut worms are playing havoc with corn and tobacco. In one tobacco bed only four tobacco plants came up where there should have been hundreds. Some corn has been replanted.

In regard to the building boom, five homes are a sure thing this summer, with more to follow. It is certain that a dozen houses will be erected within the village limits before the end of the present year.

"Knucks" are the favorite recreation in the marble line at the present time. "Jonce's" corner is the popular rendezvous. Marna Collier, Soldier Beckett, Bing Cooper, Ed, Lem and Will Stevens are as eager to join in a game as "Pid" Coulter, Sailor Stevens and Aleck Beckett, an expert coterie of the small fry. It is funny to see the faces of some luckless losers as they hold their clenched fists on the ground to be shot at by the winner.

Fish are biting fine and many being taken in Tolle's lake, an expansion of Stone Lick. Several members of the perch and catfish family reside therein, and the fishing ground has the advantage of being within sound of the dinner bell, so if the disciple of Isaak Walton doesn't get materials for a feed at one end of the line he will at the other.

Charles Kennen has some old time records which are quite a curiosity to folks of the present day. Among them are a bond signed by Henry Clay, dated July 3rd, 1797; a commission from Governor Beverly Randolph, of Virginia, appointing Joseph Berry, Gent, a Capt. in the militia of Mason County, dated April 27th, 1791; an order of arrest issued by John Wilson, April 22nd, 1794, for George Welch, who had been convicted of a debt of four pounds, nineteen shillings and eleven pence to George Marshall; bill for collection of one hundred and ninety-one pounds, signed by Henry Clay, attorney at law; a paper bearing the signature of Garret Davis, the great Kentucky lawyer; a bundle of old letters written before envelopes were in fashion, on large sheets of coarse paper folded in envelope shape and sealed with sealing wax. The rates of postage were somewhat higher than at present. Year 1804, Versailles, Ky., to Washington, Ky., 10c.

Ab. Bramel, the well known and deservedly popular farmer, violinist and philosopher, has a curiosity in the way of a fence paling riven from an oak tree two feet through, which has an old-fashioned, square, badly rusted nail in it two inches in depth from the outside bark. He also has a half yearling Blue Jeans colt which is the speediest pacer of its age in the neighborhood. This pacer's movements are the "poetry of motion" and the "speed of thought" is pris-

oned in his limbs." He has refused \$50 cash for the little wonder, which promises to make, barring accidents, an exceptionally fine saddle horse.

Road Superintendent Luttrell and L. M. Collis, Esq., gave the first bridge on the Dickson pike, over Stone Lick, which has been regarded as unsafe for heavy vehicles for some time past, a critical examination Tuesday. The result has confirmed its weakness, as lumber has been hauled for a complete new bridge. The completion of the bridge this week, with favorable weather, is a certainty.

Mrs. Lena Davis, formerly Miss Lena Roe, has been very seriously ill and all of the relatives in this vicinity have been at her bedside anxiously awaiting for the critical turn in her malady.

Beadle Warde has a very young lady boarder at his house. She is very musically inclined and as pretty a little flower as ever blossomed in old Kentucky.—Beadle Warde.

Children's Day at the Christian Church, for which the little ones had been in training for weeks past, was celebrated Sunday evening by a grand entertainment consisting of songs and recitations. It is safe to say, however, that Miss Marguerite Wilson, a wee toddler, carried off the honors in her recitation, after a siege of coaxing. She has a peculiarly low, soft, well modulated voice, which was an added charm. As Shakespeare says: "Her voice was ever low and soft, an excellent thing in woman," the crowning glory of a well trained tongue. It is said that \$36 was the amount realized from the entertainment. An enormous crowd was present, packing the church to its utmost capacity.

Charles Cooper was kicked on the left arm by a sucking mule colt Thursday, just after he had pulled a handful of grass for the ungrateful little wretch and petted him to a stand still. The small bones of the wrist were dislocated, as Dr. Hord discovered when attending his injury. He now has the injured member in splints and will be incapacitated for active farm duties for several weeks.

An enormous crowd was present, packing the church to its utmost capacity.

Charles Cooper was kicked on the left arm by a sucking mule colt Thursday, just after he had pulled a handful of grass for the ungrateful little wretch and petted him to a stand still.

The small bones of the wrist were dislocated, as Dr. Hord discovered when attending his injury. He now has the injured member in splints and will be incapacitated for active farm duties for several weeks.

Ab. Bramel, the well known and deservedly popular farmer, violinist and philosopher, has a curiosity in the way of a fence paling riven from an oak tree two feet through, which has an old-fashioned, square, badly rusted nail in it two inches in depth from the outside bark. He also has a half yearling Blue Jeans colt which is the speediest pacer of its age in the neighborhood. This pacer's movements are the "poetry of motion" and the "speed of thought" is pris-

oned in his limbs." He has refused \$50 cash for the little wonder, which promises to make, barring accidents, an exceptionally fine saddle horse.

Road Superintendent Luttrell and L. M. Collis, Esq., gave the first bridge on the Dickson pike, over Stone Lick, which has been regarded as unsafe for heavy vehicles for some time past, a critical examination Tuesday. The result has confirmed its weakness, as lumber has been hauled for a complete new bridge. The completion of the bridge this week, with favorable weather, is a certainty.

Mrs. Lena Davis, formerly Miss Lena Roe, has been very seriously ill and all of the relatives in this vicinity have been at her bedside anxiously awaiting for the critical turn in her malady.

Beadle Warde has a very young lady boarder at his house. She is very musically inclined and as pretty a little flower as ever blossomed in old Kentucky.—Beadle Warde.

Children's Day at the Christian Church, for which the little ones had been in training for weeks past, was celebrated Sunday evening by a grand entertainment consisting of songs and recitations. It is safe to say, however, that Miss Marguerite Wilson, a wee toddler, carried off the honors in her recitation, after a siege of coaxing. She has a peculiarly low, soft, well modulated voice, which was an added charm. As Shakespeare says: "Her voice was ever low and soft, an excellent thing in woman," the crowning glory of a well trained tongue. It is said that \$36 was the amount realized from the entertainment. An enormous crowd was present, packing the church to its utmost capacity.
